

SUMMER 2017: STAARTING WITH THE TEKS

Math for the Digital Age Academies

Through problem-based activities and a blended learning environment, K-8 teachers will experience the rigor of the revised Math TEKS as well as the 21st century skills students need through a county-based cohort. During three face-to-face sessions throughout June and July, participants will spotlight and deconstruct a Student Expectation, analyze potential learning gaps between grade levels, understand the learning progression of the spotlighted SE, and design tasks related to the spotlighted SE using two parallel technologies. This blended learning experience consists of three face-to-face sessions for 18 CPE hours and 6 CPE hours of online learning through Canvas, which includes pre- and post-work for each session as well as discussion posts.

Upon completion of this Digital Math Academy, teachers will receive a \$150 stipend for the 6 online hours. A signed Agreement Form for “2016-2017 ESC Region 11 STAARTing with the TEKS: Math for the Digital Age Academy” must be brought to the first face-to-face session and can be accessed at <http://www.esc11.net/Page/5644>. There is no cost to attend these Digital Math Academies. Participants are asked to bring a fully charged laptop or tablet to each face-to-face session.

Prior to attending the first face-to-face session, Canvas must be accessed and online work must be completed at esc11.instructure.com. Your username is the email address used in your ESC Region 11 registration profile. If you have problems accessing Canvas, contact elarning.help@esc11.net.
