

TEXAS SUCCESS TOT SESSIONS

THINK THROUGH MATH

Student success starts with crafting the right plan for using Think Through Math. This Training of Trainers (TOT) will walk you through the steps of a successful implementation.

P.M. Audience

Intermediate/Advanced Users - The session includes group collaboration and implementation planning. Participants will leave with a plan in hand to launch TTM.

Session Overview:

ADVANCED USER TRAINING: 3 HOURS

- **Data-Driven Instruction Training** - Your TTM instructional coach will take you on a deep-dive into your year-to-date implementation data (if available), so you can celebrate your successes and identify areas for continued growth.
- **TTM and the Quantile® Framework** - How can you measure each students' level of math proficiency and on-going progress? TTM has incorporated the Quantile® scale from MetaMetrics® (the math equivalent of the popular Lexile scale for reading) to provide your teachers with the information they need to ensure that every student is working within their zone of proximal development.
- **Instructional Models for Think Through Math** - There is no "one size fits all" instructional model. Your team will explore how to use TTM for different classroom models, such as a blended learning model, flipped classroom model and rotation model. We will focus on increasing engagement and optimizing 1:1 instruction time with students.
- **The Power of Math Journaling** - To build a deep understanding of mathematical concepts, students must be able to show their work. We will cover TTM's journaling methodology and helps teachers communicate why showing work is so important. We will help teachers guide students through the

DATE & TIME:

January 27, 2017
1:00-4:00

LOCATION:

ESC Region 11
1451 S Cherry Lane
White Settlement, TX 76108

REQUIRED MATERIAL:

Technology: Computers/Tablets
