

Connect 2 Texas

Expanding knowledge
and stimulating curiosity
by engaging learners
in dynamic, content-rich,
virtual encounters with
educational experts.

Connect2Texas is a network of Texas-based educational content providers, including museums; cultural, historical, and scientific organizations; and authors. These providers utilize interactive videoconferencing to deliver live educational programs and professional development to school children and educators across the country. Bring the scientists, experts, and authors directly to your students without leaving the classroom!

Connect2Texas providers offer a wide variety of programs that target all subjects and grade levels from snakes to space. Programs are added throughout the year, so check back regularly for new programs and session availability.
