

ESC REGION 11 Real VideoLibrary

REAL TEACHERS • REAL CLASSROOMS • REAL STRATEGIES

Have you ever wondered what
“differentiation,”
“higher-level thinking,” or
“classroom management”
looks like in your colleagues’
classrooms across the region?

*Well, stop wondering and start learning by
using our greatest asset: our amazing teachers!*

ESC Region 11 is pleased to announce the creation of a free video library of real teaching offered to all districts in the region. We’re building this incredible, free resource that will have dozens of real teaching examples of everything from differentiation and objective-driven instruction to classroom management and more.

**Why? Because we believe that one of
the best ways to improve teaching is to
observe other teachers.**

Now, you may not be sure if your teaching style could be viewed as “exemplar” by someone else...but we understand that every teacher does things that another teacher might find useful! Watch **this video**. So, ESC Region 11 is committed to creating an extensive database of video examples that come from our very own teachers, authentically showcasing their skills.
