

LID Area Trainings for 2018-2019

BRINGING PD TO YOU!

Due to requests from districts near and far, there will be three different training opportunities for LID teachers, coordinators, specialists, and paraprofessionals to attend in their area!

TEKs Alignment through Alternate Standards and Pre-Requisite Skills

This training was developed by the Low Incidence Statewide Network to provide guidance to teachers working with students with significant cognitive delays. The training will focus on how to bring all the pieces together so that instruction is aligned to the TEKs, assessment, and the IEP in order to prepare students for STAAR ALT 2 and for life! Participants will also receive access to resources such as the critical classroom components checklist, a best practice rubric for self-evaluation, and the new monthly instructional guide that will support teachers throughout the year.

9:00 a.m. – 4:00 p.m.

Low Incidence Disabilities - The Three Cs of Behavior Management: Connection, Communication, Choices

This training was designed by the Low Incidence Statewide Network to provide guidance to teachers working with students with significant cognitive delays. The training will focus on behavior as communication. It will explore how teachers and paraprofessionals can create a safe environment and build positive momentum that allows for students to build connections, make choices, and communicate in ways that lead to less frustration and clear communication attempts that will have positive results.

Evidence-Based Practices for the Education of Students with Down Syndrome

This training was developed by the Low Incidence Statewide Network as a result of a statewide stakeholders meeting of parents of children who have Down Syndrome. At the meeting, parents identified priorities for the education of their children. Their top four priorities were: (1) training for all educational staff, (2) inclusion with non-disabled peers, (3) better communication and teamwork between staff and families, and (4) futures planning/transition preparation. This training was developed to be shared across the state to help educate and support staff working with students who have Down Syndrome.
