

The Transition Assessment and Goal Generator

V I R T U A L S E S S I O N

September 23, 2020 • 2:00 – 3:30 p.m.

The Transition Assessment and Goal Generator (TAGG) is an online assessment that can be used to help identify a student's transition strengths and needs, and from the greatest needs, TAGG automatically produces recommended annual transition goals for his or her IEP. The TAGG has three versions: Professional, Student, and Family. Responses from all three versions are captured in the results profile. The Student and Family TAGG versions promote a student's voice in developing the IEP transition plan!

Registered participants will also create an action plan for implementation, create an account, and receive free credits for use.

To register, visit www.esc11.net and click on “Register.”

This is an ESC Region 11 and 10 Collaboration, generously supported by the Student-Centered Transition Network and The University of Oklahoma Zarrow Center for Learning Enrichment.

For more information, contact Carla Johnson at cjohnson@esc11.net or 817-740-3614 or Sandye Cox at sandye.cox@region10.org or 972-348-1754.
